Your letter to Mr. Allen W. Dulles, Director, of 31 January 1958, has been referred to me for direct reply. It is with pleasure that I name  to represent this Agency as a delegate at the Second International Cartographic Conference,  during the week of 15 - 21 June 1958.

I am quite sure that you will find that  has a keen interest in modern cartographic and reproduction techniques. He is looking forward to participating with the other delegates in discussions of the various topics listed on your preliminary program.

If it is necessary to communicate with him between now and the time of the conference, he may be addressed at this Agency.

Sincerely yours,

Otto E. Guthe
